I am a #COVID-19 Warrior

I will take vaccine
on my turn as it protects
me and family

Both the vaccines are safe and immunogenic

Vaccination may help
reduce complications of
infection and this is an
added boon.

The technology provided by
the government for this
vaccination drive is
excellent.

“ We have had a very challenging time during the Covid pandemic and finally there seems to be some light at the end of the tunnel with the advent of the vaccine.

Let's use all the resources at our command to fight the scourge of Covid. It is a safe efficacious vaccine so please get vaccinated and encourage your family and friends to get vaccinated too when offered. I took one on the first day of the vaccine being rolled out and request you to do the same.

Let's all get together, fight and defeat Covid with all our might. ”

“ I got myself vaccinated.
I think it is important to get ourselves
vaccinated as it will reduce the
severity of the disease if we ever get
it and it will add to the immunity of the
population thereby doing a great
service to the country. ”
